

ROCKSHIELD

ENGINEERED WOOD PRODUCTS ULC

Rockshield EWP produces aspen core plywood from sustainably-managed forests in Cochrane, Ontario. Rockshield's panels are intended to be used in high-end kitchen cabinets, architectural millwork and fine furniture throughout Canada and the U.S.

SUSTAINABILITY AND THE ENVIRONMENT

The core blanks of Rockshield's plywood are made with aspen logs from sustainably-managed forests in Northern Ontario. Aspen not only produces superior hardwood plywood, but it is also one of the best species for sustainable forestry; it naturally regenerates from root saplings once the main trunk has been harvested and is a post disturbance species as well.

CHOICES FOR THE ENVIRONMENT

Rockshield is CARB 2-certified and uses a ULEF Casco-Resin™, part of the **Ecobind** family of resin products produced by Hexion.

WHAT ELSE DO WE OFFER?

SUPERIOR PRODUCTS

Rockshield provides premium quality engineered plywood for your finished product.

CANADIAN MADE

From plantation to distribution, we believe in producing and delivering a true Canadian product.

RESEARCH

As an industry leader, we are invested in developing new and better ways to create superior wood products for our clients.

OUR PRODUCT IS PERFECT FOR...

Aspen, which makes up the core of our veneer core plywood, creates a superior product due to its light to white color, uniform texture, good dimensional stability, and low shrinkage. This makes our plywood perfect for:

- Kitchen cabinets
- Wall paneling
- Furniture
- Recreational vehicles
- Doors
- Bathroom vanities
- Stair parts
- Speakers
- Commercial millwork and more...

LEED ACCEPTED

Accepted under LEED V4 formaldehyde requirements.

INTRODUCING ROCKSHIELD'S VENEER CORE PLYWOOD

Rockshield's Plywood Veneer Core is a superior, reliable wood that is perfect for any number of applications.

Our plywood consists of an aspen core; this means our plywood is light in weight and colour, is dimensionally stable with a reduced possibility of warping, and peels smoothly to produce a beautiful finish.

THICKNESS	NO. OF PLYS	BUNDLE SIZE	PANEL SIZE
1"	9	30	48 1/2" X 96 1/2"
3/4"	7	30, 60	
5/8"	7	30, 60	
1/2"	5	30, 60, 90	
3/8"	5	30, 60, 90	
STANDARDS			
American Standard for Hardwood Decorative Plywood ANSI-HPVA HP-1-2009			
CARB Phase 2; 0.05 ppm Veneer Core (Domestic) - UF Adhesive Certified			
LEED v4 Accepted - Canada and U.S. Green Building Council			

The majority of Rockshield's wood panels are finished with an overlaid hardwood veneer.
